

# GERMAN CASTLES

CASTLES IN GERMANY WERE OFTEN BUILT ON TOP OF A MOUNTAIN, OR AT A PLACE TO PROTECT AN IMPORTANT TRADING ROUTE.

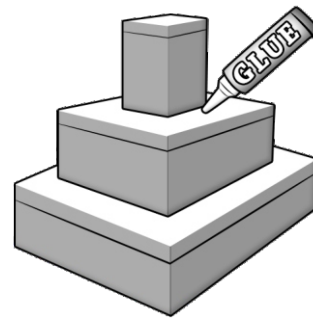

## Schwerin Castle

Schwerin Castle sits on an island in the main lake at Schwerin. For many centuries, it was home to the grand dukes of Mecklenburg. In the 20th century, it was a college for kindergarten teachers and a museum. Today the castle is a museum and a government building. Some say it is haunted by a ghost who has been spotted wearing 17th century clothing.
