

## MEET LOLA

LOLA THE LLAMA ALWAYS MAKES SURE NO ONE IS LEFT OUT.

LOLA TREATS EVERYONE LIKE A SISTER.

Did you know?  
WHEN REMOVED FROM THEIR HERD LLAMAS WILL HERD WITH OTHER ANIMALS SUCH AS SHEEP.

## MEET COCO

COCO THE DOG LIKES TO BE HELPFUL. SHE'S A GREAT FRIEND AND ALWAYS LENDS A PAW WHEN THERE IS WORK TO BE DONE.

Did you know?  
SOME HOSPITALS HAVE DOGS THAT VISIT PATIENTS TO HELP THEM FEEL BETTER.

COCO IS FRIENDLY AND HELPFUL

GOOD JOB!  
YOU HAVE EARNED THIS AWARD FOR LEARNING TO APPRECIATE WATER.

After this part you will have earned the Love Water award.

CONSERVATION MEANS PREVENTING WASTE

### TRY THIS

Place an empty jar in the sink. Set the faucet to drip into the jar. Come back in half an hour. How much water is in the jar? Enough if you are thirsty? Enough for cooking? Save the water to use during your adventure with the animal friends. This is conservation.

CUT HERE

GLUE THIS EDGE TO PAGE 1

THIS ADVENTURE IS GOING TO BE FUN.

THE RAIN FILLED UP MY BATHTUB LAST NIGHT.

SO I'LL BE READY AFTER MY BATH.

AND I'LL USE THAT CUP OF WATER TO WATER THAT PLANT.

I'LL INVITE ALL OUR FRIENDS SO NO ONE IS LEFT OUT.

### Saving Water

- A half filled bathtub gets you just as clean as a full bathtub.
- Turning off the water when brushing your teeth can save 200 gallons of water a year.
- A dripping faucet can waste 2000 gallons of water a year.
- You can use unsalted pasta water to water plants.
- Showers use less water than baths.
- You can save up to nine gallons of water a day by turning off the tap while washing your hands.
- You don't have to flush every time you go to the bathroom (ask first!)

You can reduce your use of water by...
